

I am writing regarding the "K-Love" station. I believe this is a necessary service for the public. For me personally, this is the only station I listen to for all my news, public announcements, information. If this station is no longer available, I would just turn off the radio. It is vital to me and I believe an incredible service to the community for news and family-friendly broadcasting and encouragement. It's like getting free counseling. I cannot adequately express the value of this station, but I am pleading with you to leave K-love in service.
